

# MIX ... MATERIALS

You can have too much of a good thing: overdose on bling and it's too hip-hop; overdose on wooden/beaded pieces and it's too hippie. Go for statement pieces of opposing textures with a common element — like geometric styles or gold accents — and get the proportions just right.

# MIX ... PRINTS

Clashing printed accessories is a quick, fun way to spice up a basic outfit. The trick is to keep them to a similar colour palette, or opt for similar-looking prints (think polka dots and leopard spots).
